Cybersecurity Essentials: Tips and Tricks

August 2025

Protect Your Business with These Tips

Protecting your business from cyber threats is easier than you think. Follow these simple tips and tricks:

- **Use Strong Passwords:** Combine letters, numbers, and symbols. Change them every 3 months.

- **Enable Two-Factor Authentication (2FA):** Add an extra layer of security with a code sent to your phone.

- **Keep Software Updated:** Regularly update your operating systems and apps to patch security holes.

- **Backup Data:** Schedule automatic backups to an external drive or cloud service.

- **Train Employees:** Teach your team to recognize phishing emails and suspicious links.
